OBJECTIVE

Full-stack developer with hands-on experience building scalable web applications using React.js, Laravel, and MongoDB. Proven ability to implement efficient database solutions and deliver seamless user experiences through responsive design. Eager to contribute to innovative development projects that drive business growth.

PROJECTS

AGFC Management System | HTML, CSS, PHP, JavaScript

2022

- Developed a full-stack gym management app with CRUD functionalities for information and schedules.

TBPillPal – Tuberculosis Companion | Firebase, TailwindCSS, ShadCN-UI, ReactJS, TypeScript

- Developed a healthcare app to support tuberculosis patients with medication adherence and tracking.
- Integrated real-time notifications for healthcare workers to monitor compliance.
- Implemented a gamification system to encourage consistent medication intake and treatment progress.
- Integrated AI to evaluate and summarize test results with full control of output.

2025

Cinespace – Movie Discovery Application | NextJS, React Query, TypeScript, ShadCN

- Built a responsive movie discovery app with search, filtering, and detailed movie pages.
- Optimized performance with SSG, SSR, SEO metadata, and React Query for efficient data handling.
- Integrated TMDb API with TailwindCSS/Radix UI, adding pagination, carousels, and advanced sorting.

2025

EXPERIENCE

WordPress Website Development Intern

April 2025 - July 2025

Knowles Training Institute

- Designed and maintained engaging, user-friendly web pages to enhance the institute's digital presence.
- Collaborated with the marketing team to develop and implement creative layouts aligned with brand guidelines.
- Created, uploaded, and optimized website content, including construction service descriptions, project updates, and promotional materials, ensuring consistency in branding, tone, and visual presentation.
- Improved website navigation, accessibility, and responsiveness across devices for a seamless user experience.
- Assisted in SEO optimization by structuring content and metadata to increase visibility and search rankings.
- Contributed to ongoing website updates, ensuring accurate and timely publication of course information and event details.

Information Technology Operations Intern

November 2024 - March 2025

Concentrix Cyberwest

- Provided technical and software support to end-users, ensuring quick resolution of hardware, software, and network issues.
- Administered and maintained IT systems and infrastructure, including servers, user accounts, and security access controls.
- Delivered system administration services, ensuring high availability, reliability, and smooth operations across platforms.
- Managed IT assets by tracking hardware, software, and licenses, optimizing usage, and maintaining compliance.

SKILLS

Front End Development: HTML, ReactJS, FluxUI, TailwindCSS, JavaScript, ShadCN, TypeScript
